

"FLAPPY ADVENTURE"

GAME DESCRIPTION

Flappy Adventure is an engaging 2D arcade game developed with Phaser. Players control a lively, animated bird soaring through a scrolling environment filled with challenges. Avoid the devil, collect coins, and keep your bird flying by pressing the up arrow. With simple mechanics, fluid animations, and an escalating level of difficulty, Flappy Adventure offers hours of fun.

GENRE OF THE GAME

Arcade/Endless Runner/Action

GAMEPLAY

- Start in the Preload Scene, featuring a "Start" button and a preview of the animated bird.
- Clicking the Play Button begins the game.
- The bird is subject to gravity (gravityY), requiring the player to press the Up Arrow to keep it aloft.
- The background scrolls from right to left using tile assets, creating a dynamic world.
- As the game progresses, animated devils and coins appear from the right side of the screen.

OBJECTIVE

- Collect coins to increase your score.
- Avoid colliding with devils and the ground to stay in the game.
- When the bird touches the ground or overlaps with a devil, the game transitions to the End Scene.
- The End Scene displays the player's score and provides a "Replay" button to restart the adventure.
